Respected Sir,

I hope this letter finds you in good health.

It is with great pleasure that we acknowledge the sincere efforts and dedication of Mr. Punya Mittal, a B.Tech student of VIT Chennai, for his volunteer work and initiative towards leveraging technology to enhance rehabilitation services.

During his engagement with a rehabilitation centre, Mr. Mittal observed several operational and educational challenges, including reliance on paper-based learning materials, manual record-keeping, and limited engagement of students during life-skills sessions. Motivated by these observations, he conceptualized a digital learning platform aimed at addressing these challenges through interactive learning modules, multimedia-enabled content, gamified activities, and digital progress tracking for both learners and facilitators.

We commend Mr. Mittal's commitment to applying his technical knowledge and innovative thinking towards addressing real-world social challenges. His initiative reflects a strong sense of social responsibility and demonstrates the meaningful impact that technology can have in improving the quality of rehabilitation services.

In view of the potential of this initiative, we kindly request the School of Computer Science Engineering, VIT Chennai, to consider extending academic guidance, technical mentorship, and institutional support to enable Mr. Mittal to further develop, validate, and refine this project. We are confident that, with appropriate support, this initiative can evolve into a scalable and sustainable solution benefiting rehabilitation centres and other community-based institutions across the country.

We sincerely appreciate your time and consideration and look forward to your support in encouraging such socially impactful innovations.

धन्यवाद/Thanks
